This uniquely styled backpack is perfect for professionals or students. Crafted from eco-friendly fabric made from recycled plastic, it combines sustainability with functionality. The integrated laptop compartment fits laptops up to 17", including the MacBook Pro 16". A scratch-resistant interior pocket is ideal for securing tablets.

The front pocket features an organisation panel to neatly store your smartphone, complete with a convenient headphone port. Side mesh pockets provide quick access to essentials such as an umbrella or a water bottle. For ultimate comfort, the backpack includes extra padding on the back panel and shoulder straps, along with Air Mesh material on the straps to ensure breathability throughout the day.

Features

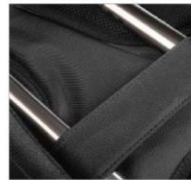

- Ergonomic Design: Padded back panel and shoulder straps for maximum comfort.
- Modern Urban Style: Sleek design suitable for professionals and students alike.
- Spacious Compartments: Two large compartments featuring an integrated padded laptop pocket and multiple accessory pockets.
- Music-Friendly Pocket: Includes a dedicated port for convenient cable access.
- Tablet Compatibility: Specially designed compartment for iPads and other tablets.
- Convenient Side Pocket: Perfect for carrying a water bottle or umbrella.
- Lightweight Build: Easy to carry without compromising on durability.
- Quick Access Pocket: Provides easy reach to essential items on the go.
